Part VIII: Oceania

This part of the Directory of Catholic Seminaries describes seminaries in Oceania. The map above illustrates the number of seminary records in the Directory by country. Overall, the Directory includes 65 seminary records for Oceania. Among countries in this world region, the Directory includes the highest number of seminary records for Papua New Guinea (26 seminaries), Australia (22 seminaries), and New Zealand (nine seminaries).

Comparison between the Number of Seminaries in the *Annuario Statisticum Ecclesiae* (ASE) and Its Equivalent in the *Directory of Catholic Seminaries* (DCS) in Oceania by Country¹

	Number of seminaries in ASE				Number of seminaries in DCS

The table above attempts to estimate how complete the Directory is by comparing the number of seminaries listed in the Segreteria di Stato Vaticano's (2013) *Annuario Statisticum Ecclesiae* with the number of open seminaries included in this Directory.

¹ The numbers for ASE were derived from the 2013 edition. The numbers for DCS in the table here were calculated for comparison to the numbers from ASE. The numbers of “seminaries” for DCS in the table here are not equal to the number of “seminary records” in DCS for two reasons. First, one seminary record may, for example, describe a seminary which is classified as “seminary” and “residence” or “center for the diocesan clergy” and “center for the religious clergy” as understood by ASE and treated by ASE as separate seminaries. Second, DCS includes information about both open and closed seminaries.

- According to *Annuarium Statisticum Ecclesiae* countries with the highest number of seminaries in Oceania are: Papua New Guinea (25 seminaries) and Australia (23 seminaries). Countries with the fewest number of seminaries are: Guam and Kiribati (each has two seminaries).
- The Directory contains information on 65 seminaries in Oceania. This number includes one secondary school, 46 philosophy and theology seminaries, and 18 seminaries for which there is not sufficient information to classify them in one of the two groups.
- Overall, the number of seminaries in the Directory amounts to 80 percent of the seminaries accounted for in the *Annuarium Statisticum Ecclesiae*.
- Relative to *Annuarium Statisticum Ecclesiae*, the Directory contains information on more seminaries in New Zealand. The Directory also provides information about seminaries in Federated States of Micronesia for which *Annuarium Statisticum Ecclesiae* does not list any seminaries.

The discrepancies between *Annuarium Statisticum Ecclesiae* and the Directory should be given due consideration when using the Directory. For more detailed description of the methodology used in preparing the Directory please see Part I.
