## Part IV: North America

This part of the Directory of Catholic Seminaries describes seminaries in North America. The map above illustrates the number of seminary records in the Directory by country. Overall, the Directory includes 449 seminary records for North America: 405 seminary records for the United States and 44 seminary records for Canada.

**Comparison between the Number of Seminaries in the *Annuario Statisticum Ecclesiae* (ASE) and Its Equivalent in the *Directory of Catholic Seminaries* (DCS) in North America by Country<sup>1</sup>**

	Number of seminaries in ASE				Number of seminaries in DCS			
	Secondary schools	Philosophy and theology	Not classified	ASE total	Secondary schools	Philosophy and theology	Not classified	DCS total
Bermuda	0	0	-	0	0	0	0	0
Canada	6	39	-	45	2	36	7	45
Greenland	0	0	-	0	0	0	0	0
St. Pierre and Miquelon	0	0	-	0	0	0	0	0
United States	31	212	-	243	46	275	90	411
<b>North America</b>	<b>37</b>	<b>251</b>	<b>0</b>	<b>288</b>	<b>48</b>	<b>311</b>	<b>97</b>	<b>456</b>

The table above attempts to estimate how complete the Directory is by comparing the number of seminaries listed in the Segreteria di Stato Vaticano's (2013) *Annuario Statisticum Ecclesiae* with the number of open seminaries included in this Directory.

Two countries with seminaries in North America are the United States (243 seminaries) and Canada (45 seminaries). The Directory appears to include information on all the seminaries in Canada. The number of seminaries in the United States is much higher in the Directory than in the *Annuario Statisticum Ecclesiae*. This can mostly be attributed to the presence of duplicate entries in the Directory. The duplicates are a result of conflicting information about seminaries in different data sources constituting the Directory. For more information about the methodology used in the Directory, please see Part I. For a rigorous and up-to-date overview of seminaries in the United States, please see the *Catholic Ministry Formation Directory* 2015 prepared by Gautier et al. (2015).

---

<sup>1</sup> The numbers for ASE were derived from the 2013 edition. The numbers for DCS in the table here were calculated for comparison to the numbers from ASE. The numbers of “seminaries” for DCS in the table here are not equal to the number of “seminary records” in DCS for two reasons. First, one seminary record may, for example, describe a seminary which is classified as “seminary” and “residence” or “center for the diocesan clergy” and “center for the religious clergy” as understood by ASE and treated by ASE as separate seminaries. Second, DCS includes information about both open and closed seminaries.
