## Part V: South America

This part of the Directory of Catholic Seminaries describes seminaries in South America. The map above illustrates the number of seminary records in the Directory by country. Overall, the Directory includes 764 seminary records for South America. Among countries in this world region, the Directory includes the highest number of seminary records for Brazil (303 seminaries), Colombia (152 seminaries), and Peru (107 seminaries).

**Comparison between the Number of Seminaries in the *Annuario Statisticum Ecclesiae* (ASE) and Its Equivalent in the *Directory of Catholic Seminaries* (DCS) in South America by Country<sup>1</sup>**

	Number of seminaries in ASE				Number of seminaries in DCS			
	Secondary schools	Philosophy and theology	Not classified	ASE total	Secondary schools	Philosophy and theology	Not classified	DCS total
Argentina	35	89	-	<b>124</b>	1	28	30	<b>59</b>

<b>South America</b>	<b>785</b>	<b>1,125</b>	<b>0</b>	<b>1,910</b>	<b>31</b>	<b>468</b>	<b>257</b>	<b>756</b>

The table above attempts to estimate how complete the Directory is by comparing the number of seminaries listed in the Segreteria di Stato Vaticano's (2013) *Annuario Statisticum Ecclesiae* with the number of open seminaries included in this Directory.

- According to *Annuario Statisticum Ecclesiae* countries with the highest number of seminaries in South America are: Brazil (1,010 seminaries), Colombia (277 seminaries), and Peru (152 seminaries). Countries with the fewest number of seminaries are: Suriname (two seminaries) and Uruguay (seven seminaries).
- The Directory contains information on 756 seminaries in South America. This number includes 31 secondary schools, 468 philosophy and theology seminaries, and 257 seminaries for which there is not sufficient information to classify them in one of the two groups.

<sup>1</sup> The numbers for ASE were derived from the 2013 edition. The numbers for DCS in the table here were calculated for comparison to the numbers from ASE. The numbers of “seminaries” for DCS in the table here are not equal to the number of “seminary records” in DCS for two reasons. First, one seminary record may, for example, describe a seminary which is classified as “seminary” and “residence” or “center for the diocesan clergy” and “center for the religious clergy” as understood by ASE and treated by ASE as separate seminaries. Second, DCS includes information about both open and closed seminaries.

- Overall, the number of seminaries in the Directory amounts to 40 percent of the seminaries accounted for in the *Annuario Statisticum Ecclesiae*.

The discrepancies between *Annuario Statisticum Ecclesiae* and the Directory should be given due consideration when using the Directory. For more detailed description of the methodology used in preparing the Directory please see Part I.
